# Western Alaska tribes, outraged by bycatch, turn up the heat on fishery managers and trawlers

The years-long debate is taking on increasing urgency, as subsistence harvesting bans continue and the policy responses under consideration threaten to impose steep costs on industry.

**JUSTICE,** as it relates to equity and fairness, is a policy question

**POLICY** is whatever a State or governing institution does (or does not do) to address an identified policy problem

Policy has three goals: to determine
Scale
Allocation
Distribution
